## ABOUT: POWDER & BULK SOLIDS INDIA 2016

South Asia's most important industry gathering for process engineering and bulk solids handling has emerged as the meeting place for all the stakeholders of the industry. As in the previous years the last edition of the exhibition in 2015 was accompanied by a high quality conference and technical workshops session presented by eminent experts from relevant industry. The 3 day event provided an International platform for knowledge transfer, networking & business. 78 exhibitors from eight countries showcased their latest products and technologies, innovations and new products for material handling and process industry at this one stop event to an audience of 1971 highly qualified trade visitors. Powder

& Bulk Solids India - organized by NuernbergMesse India Pvt. Ltd. In co-operation with Vogel Business Media India Pvt. Ltd. is a part of the POWDER & BULK NETWORK. The POWDER & BULK NETWORK with its flagship "POWTECH" is an International union of exhibitions and conferences on powder and bulk solids handling. The 6th edition will offer high quality presentations, solution oriented developments, networking opportunities and knowledge acquisition and will be held from October 13th -15th, 2016 at the Bombay Convention & Exhibition Centre, Mumbai, India.

## OVERVIEW OF THE INDIAN MARKET

The global bulk material handling products and technologies market which was worth US\$57.60 billion in 2013, is expected to be valued at US\$62.36 billion by the end of 2020. The rapid growth of the industrial and construction sectors in emerging markets is expected to propel the global bulk material handling products and technologies market. Increased industrial automation along with increase in mass production methodology and assembly line concept will further boost the market. The global bulk material handling products and technologies market has a huge opportunity to grow with increased demand from pharmaceutical, chemical and food sectors.

The growing demand for powder bulk materials such as fertilizers and cement, from agricultural and construction sectors will drive the market. The bulk material handling products and technologies market will grow on the basis of end-use industries such as oil and gas companies, mining industries, agricultural farms, chemical companies, saw mills, paper mills, and others including construction and pharmaceutical industries.

## CONCURRENT WORKSHOPS & CONFERENCE PROGRAM

While providing the right platform to companies to showcase their products, Powder and Bulk Solids India 2016 is also designed to bring together industry experts and academic institutions in a joint effort at a series of high quality presentations and specialized technical workshops.

### V. MANJULA

#### MANAGING DIRECTOR, HOSOKAWA

"We are very satisfied with the outcome of Powder & Bulk Solids India 2015 as there were footfalls of new customers. Decision makers are very important for us to generate business and Powder & Bulk Solids India 2015 gave us this opportunity to network with them. The event gives us a platform to showcase innovative products. We are happy that people understand our products and respond well to our ideas."

### ANTON BENJAMIN

#### GENERAL MANAGER - GRINDING & DISPERSING SYSTEMS, NETZSCH

"Powder & Bulk Solids is a very big industry with different segments. Powder & Bulk Solids India 2015 helped the suppliers to grow. The event created a platform where manufacturers and service providers were able to connect with the customers in a much better way."

## EXHIBITOR CATEGORIES

### BASIC PROCESSING TECHNOLOGIES FOR POWDER & BULK MATERIAL

Size reduction, mixing, separating, screening, filtering, agglomerating, granulating, briquetting, drying of powders and bulk solids, thermal processing technologies for powder and bulk material, chemical processing technologies for powder and bulk material, optical processing technologies for powder and bulk material, other basic processing technologies for powder and bulk material and accessories, processing components and other products related to chemical, food, pharmaceutical, plastic, cement, mining and ports industry.

### PLANT ENGINEERING AND PROCESSING COMPONENTS

Conveying, transport, storage, emptying, dosing, instruments, valves, flaps, slides, compressors, coolers, pumps, reactors, recycling plants, vacuum plants, heat exchangers, plastic components for equipments and plants, packaging and filling, other components for plant and process engineering and accessories

### MEASUREMENT, CONTROL, AUTOMATION

Equipment at field level. particle analysis. process and laboratory instrumentation. systems at automation level, systems at ERP level, other C & I, automation and instrumentation equipment and systems, nano particle technologies, safety and environmental technologies, services

### SAFETY AND ENVIRONMENTAL TECHNOLOGIES

Process safety, emission protection, other safety and environmental equipment and accessories

### SERVICES

Plant construction and planning, analysis, training and education, qualification. consultancy, testing establishments, laboratories, contract processing, other services

## VISITOR CATEGORIES

- Mining industry
- Pharmaceutical manufacturers
- Food manufacturers
- Building material manufacturers
- Plastic and rubber manufacturers
- Research institutes, universities
- Testing establishments, laboratories
- Quarrying and earthworks / pit and quarry
- Machinery and plant engineering manufacturers
- Recycling and environmental plant manufacturers
- Glass, ceramic and mineral products manufacturers
- Consultants, engineers, project managers, facility managers
- Construction industry
- Chemical manufacturers
- Feed manufacturers
- Cosmetic manufacturers
- Packaging industry
- Transport & Logistics

## HIGHLIGHTS

The most focused networking platform for material handling and processing industry for all industry groups.

Leading national and international participants from relevant industry.

High quality presentations, technical workshops, solution oriented developments and knowledge acquisition.

Focused quality visitors from related target groups.

### NISHANT JAIN APPLICATION ENGINEER, ALLGAIER PROCESS TECHNOLOGY

"This is our third time participation with Powder & Bulk Solids India. The event helped us get an overview of the industry and the market condition. It acts as a platform to exchange academic knowledge. All in all we are very happy with our association with Powder & Bulk Solids India 2015. We look forward for the next edition."

### BABITHA SANTOSH ASST. MANAGER - MARKETING MATERIAL HANDLING FLSmidth

"We have been associated with Powder & Bulk Solids India since their very first edition. Through the event we get an opportunity to build contacts and network with new clients. We also get an idea about our competitors products and technologies which helps us grow."

# PARTICIPATION FEES

	MINIMUM SPACE	INDIAN EXHIBITORS	INTERNATIONAL EXHIBITORS
<b>Raw Space</b>	<b>27 Sq.M</b>	<b>INR 8000 per Sq.M</b>	<b>EUR 200 per Sq.M</b>
<b>Shell Scheme</b> The Shell Scheme participation fee comprises space and basic package (incl. wall panels, fascia with company name, carpet, reception counter, folding chairs, waste basket, spotlights and power socket 15amp)	<b>9 Sq.M</b>	<b>INR 9000 per Sq.M</b>	<b>EUR 230 per Sq.M</b>
<b>Registration Fee</b> Comprises full company listing in the official trade show directory and web page listing		<b>INR 2500</b>	<b>EUR 50</b>
<b>Co-exhibitor Fee</b> Comprises full company listing in the official trade show directory and web page listing		<b>INR 5000 per company</b>	<b>EUR 100 per company</b>
<b>1 day conference &amp; workshop</b>		<b>INR 6000</b>	<b>EUR 190</b>
<b>3 day conference &amp; workshop</b>		<b>INR 12000</b>	<b>EUR 500</b>

Plus Govt. Service Tax as applicable (Currently 14.5%)

## DATE

13 - 15 October, 2016 (Thu - Sat)

## VENUE

Hall 6, Bombay Convention & Exhibition Centre, Mumbai Maharashtra, India

## OPENING HOURS

9.30 a.m. – 6 p.m.

### NürnbergMesse Group

NürnbergMesse is one of the 20 largest exhibition companies in the world and among the Top Ten in Europe. The portfolio covers some 120 national and international exhibitions and congresses and approx. 35 sponsored pavilions at the Nuremberg location and worldwide. Every year, around 30,000 exhibitors (international share: 36 %), 976,000 trade visitors (international share: 20 %) and 404,000 consumers participate in the own, partner and guest events of the NürnbergMesse Group, which is presented with subsidiaries in Brazil, China, India, Italy and North America. The group also has a network of about 40 representatives operating in 85 countries.

### Vogel Business Media

In 2011, Vogel Business Media celebrated its 120th anniversary. Since 1891, Vogel has been growing - today Vogel's portfolio comprises more than 100 printed publications and some 60 corresponding websites. Vogel Business Media is the largest German specialist publisher for trade and industry and also extensively covers related topic fields such as pharmaceutical, laboratories and chemicals and bulk material handling in addition to automation, automobile, electronics, production, logistics, mechanical engineering, design engineering and many others. Although Vogel has its headquarters in Wuerzburg, Germany, it also has a multitude of international activities in the rest of Europe, in Asia and in the USA
